Passengers can download free the Ocean Medallion app to enhance your digital vacation experience.

The waterproof Medallion holds your unique digital identity which is encrypted and communicates with thousands of sensors onboard and in port. It lets our Crew see information they can use to serve you better. That's in addition to using Medallion for payments, unlocking your stateroom door, and much more. While you must carry a Medallion while onboard, it's up to you how much or how little you want to take advantage of the full experience. You will also be issued a Princess Cruise Card which you can use if you don't want to use your Medallion.

Each Medallion is laser-etched with the your first and last name, ship name, and voyage dates (from boarding to departure). You can also buy accessories on board to display your Medallion, including sports bands, necklaces, clips, lanyards (available in Captain Circle® loyalty colors) and much more.

Find Your Friends, Family and Way Around the Ship: Ocean Compass is a digital portal that provides you access to your digital experience dimension. Serving as personal experience concierge before and during, the Ocean Compass has an intuitive and innovative interface. It is available online, on smart devices, on kiosks in port terminals, on stateroom TVs, on interactive surfaces located throughout the cruise ship and on devices carried by crew members. You can use the Ocean Compass to enhance your vacation, select experiences and create personalized event-based itineraries. No guest is required to have a personal device to access Ocean Compass. Your Ocean Compass tells you what's happening, from today's weather to upcoming port excursions and more. Check your Ocean Compass to view entertainment, from live shows on-ship to engaging media that you can enjoy from the comfort of your stateroom. You can also track others in your party and "chat" with others on board that you are linked to. In order to chat with fellow cruisers through the Ocean App, the guests can add each other by cabin number, and once requested the requestee will need to confirm and accept the requester.
